

NORTH SCOTT COMMUNITY SCHOOL DISTRICT

Annual
PROGRESS REPORT

2002 - 2003

NORTH SCOTT COMMUNITY SCHOOL DISTRICT **Reporting to Our Community** **Annual Progress Report** **2002-2003**

The North Scott Community School District is governed by a board of directors, elected by the public. The board of directors is responsible for determining policies, setting the budget and maintaining standards of excellence in education on behalf of the community. Board members are elected by North Scott voters for three-year terms. All North Scott board members are committed to their own lifelong learning and are regular participants in training through the Iowa Association of School Boards.

North Scott Board of Education		(563) 285-4370
Jerry Mohr, President		(563) 285-9690
Virginia Kelly, Vice-President		(563) 285-4181
Sue Cannon		(563) 225-3891
Paul Dierickx		(563) 285-4180
Jack Hill		(563) 285-9781
Rex Masterson		(563) 285-7133
Janice Uitenbrock		(563) 285-3103
Kristy Looney, Board Secretary

Mission Statement

The mission of the North Scott Community School District, a unique blend of rural and metropolitan opportunities, is to produce graduates with the capacity to be successful in a changing world by incorporating abundant resources and offering a broad-based curriculum in a respectful, safe environment.

Student Learning Goals

North Scott graduates will:

- possess a basic core of knowledge
- demonstrate personal responsibility
- communicate effectively
- demonstrate social and civic responsibility
- demonstrate self-directed life-long learning
- use complex thinking to solve problems and make decisions
- work well on a team
- use technology effectively
- think creatively

Long-Range Goals

All students will demonstrate progress in their reading performance.
All students will demonstrate progress in their ability to apply mathematical concepts to effectively solve problems.
All students will demonstrate progress in their ability to use science inquiry skills to understand their world.
All students will demonstrate progress in their personal, social, and civic responsibilities.
All students will progress in their readiness for employability in an ever changing world.

North Scott Community Schools At a Glance Enrollment (Sept. 2002)

North Scott High School	1,015
North Scott Junior High	501
Neil Armstrong Elementary	291
John Glenn Elementary	259
Virgil Grissom Elementary	208
Alan Shepard Elementary	295
Edward White Elementary	388
Total	2,957

Achievement in the Basics

Many measures are used to gauge student achievement. The North Scott Community School District uses the Iowa Tests of Basic Skills (ITBS) at grades 3-8 and the Iowa Tests of Educational Development (ITED) at grades 9-11 as an accountability and improvement measure at the district level. For accountability to the North Scott Community, achievement results are reported in reading and math at grades 4, 8, and 11, and in science in grades 8 and 11.

Achievement levels are used to report results on the ITBS and ITED assessments and are based on national percentile scores. In the low performance level, students score below acceptable (proficient) levels of performance (from 1-40%); in the intermediate performance level, students score at acceptable levels of performance (from 41-89%); and in the high performance level, students score far above acceptable levels of performance (from 90-99%). Students are considered proficient if they score in the intermediate or high levels.

Testing experts stress that achievement data is best used to identify areas of strength and weakness for individual students and classes, and to measure growth. Because of the way tests are designed, and demographic factors that influence results, standardized test scores alone are not a reliable method for comparing teachers, schools, or districts. The district continues to develop the use of a variety of assessment measures to provide valuable information about how much students are learning.

North Scott teachers and administrators use test data in planning curriculum, developing school improvement plans, and making instructional decisions in the classroom. The district focuses on improving achievement for all students.

Reading

ITBS Grade 4 Reading Comprehension Proficiency,
Biennium Averages, NPR

ITBS Grade 8 Reading Comprehension Proficiency,
Biennium Averages, NPR

ITBS Grade 11 Reading Comprehension Proficiency,
Biennium Averages, NPR

Data Summary: Student proficiency (2001-03) in reading comprehension increased over the previous biennium (2000-02) in grades 4 (82.5% proficient) and 8 (70.9% proficient) and showed a very slight decrease at 11th grade. Information on trend data and the performance of various subgroups follows.

Science Improvement Goals

Long-range Goals for Science

All students will demonstrate progress in their ability to use science inquiry skills to understand their world.

2002-03 Annual Improvement Goals for Science

We will increase the percentage of students in grades 8 and 11 who are proficient in the use of scientific inquiry strategies as demonstrated on a district designed science performance assessment.

2002-03 Annual Improvement Goals for Science Met or Not Met

Our goal was to increase the percentage of students in grades 8 and 11 who are proficient in the use of scientific inquiry strategies as demonstrated on a district designed science performance assessment. We did not meet the goal. Last year 81% of our 8th grade students were proficient on the performance assessment. This year 67% of the students were proficient on the performance assessment. Last year 76% of the 11th graders demonstrated proficiency on the performance assessment, while this year 60% were proficient. Both 8th and 11th grade showed a drop in proficiency this year instead of an increase.

2002-03 Science Goals Not Met: Corrective Actions

- Specific action plans are described in the North Scott Comprehensive School Improvement Plan.
- The secondary science program will continue to emphasize the use of performance assessment tasks to increase student proficiency in the use of scientific inquiry strategies.
- Elementary students will also participate in grade level wide performance assessment tasks to provide a foundation for the secondary science expectations.

Annual Improvement Goal for Science for 2003-04.

We will reduce by a minimum of 10% the percent of students who are not proficient in grades 8 and 10 on the district wide science performance assessment task.

11 th Grade Proficient Achievement Data Compared with State and Nation			
Content Area	North Scott	State	Nation
Reading	75.9%	77.1%	60%
Math	76.8%	81.3%	60%
Science	76.4%	N/A	60%

Additional State Indicators
Results for the Class of 2003
Dropout Data

Of the 1,515 students in grades 7-12 in 2002-03, 17 students (1.1%) dropped out during the academic year. The dropout rate in 2001-02 was 1.95%.

Of the 743 females in grades 7-12 in 2002-03, 10 females (1.3%) dropped out during the academic year.

Of the 772 males in grades 7-12 in 2002-03, 7 males (0.9%) dropped out during the academic year.

Percentage of Students Considered as Dropouts for Grades 7 to 12 By Race

Ethnicity	Number of dropouts	Number of students	Percentage of dropouts
White	17	1466	1.2%
Black	0	15	0%
Hispanic	0	22	0%
American Indian/Alaskan	0	6	0%
Asian/Pacific Islander	0	8	0%
Other	0	0	0%

Post-Secondary Data

Of the 213 seniors in 2002-03, 176 seniors (82.6%) intend to pursue post-secondary education/training compared to 79% in 2001-02.

College Entrance Scores

The American College Testing (ACT) exam is the usual college entrance exam taken by students who intend to go to college. A score of 20 or higher on the 36-point scale for the test indicates probable success in college. Students usually take the ACT exam during their junior year in high school. Of the 140 ACT-tested 2003 graduates, 74% scored at or above the state's identified college success indicator of an ACT score of 20. This is an increase from 72 percent of the students in 2002.

Completion of a Core Program

Of the 213 graduates in 2002-03, 120 students or 56.3% completed a core program of four years of English/language arts and three or more years each of mathematics, science, and social studies.

Graduation Rates

The 2001-02 graduation rate for North Scott Community School District is 90.2. The statewide graduation rate for 2001-02 is 89.4

Other Locally Determined Indicators

These are additional indicators that impact student learning as determined by the local school or school district.

2002 Graduate Follow-Up Survey

2002 graduates of North Scott High School were surveyed in May 2003. 208 graduates completing the survey reported the following activities:

Attending post-secondary school/training	64.9%
Employed	26.4%
Active military service	4.3%
Unknown	4.3%

High School Course of Study

Of 213 2002-03 high school graduates:

- 68.1% (145 students) took four years of English/language arts
- 71.8% (153 students) took three or more years of math
- 68.5% (146 students) took three or more years of science
- 100% (213 students) took three or more years of social studies

Technology at North Scott

- 100% of classrooms are connected to the Internet
- There are more than 800 computers in the district
- 100% of North Scott teachers have an e-mail address
- A K-12 Student Information System is used district-wide
- Web-based personnel software system is used by Central Office and administrative staff
- 25 computer labs throughout the district
- 100% of classrooms have a computer
- North Scott District web site is www.north-scott.k12.ia.us

Teaching Qualifications

• Number of teachers	225
• Certified teachers	100%
• Percentage with bachelor's degree	100%
• Percentage with master's degree	44%

Progress with Early Intervention Goals

- 21 of 43 K-3 classes (49%) met the guidelines of 18 or fewer students per classroom in the 2002-03 school year compared to 70% in 2001-02.
- All students in grades K-3 were administered an individual diagnostic reading assessment twice during the school year to determine their progress individually. The information was shared with parents and interventions were provided for those students needing assistance.
- Kindergarten teachers participated in staff development opportunities and ICN sessions provided by Mississippi Bend Area Education Agency (MBAEA) on the Early Literacy Advisor program. Teachers implemented strategies for increased self-regulation and scaffolded writing to support the literacy program.
- The district provided professional development opportunities to staff in a variety of ways including on-site graduate course offerings and study groups.
- The district will continue to monitor student achievement this year and use diagnostic assessments to measure progress in providing a solid academic foundation in skill readiness.
- A three-week summer reading clinic for struggling readers grades K-4 was held this summer.
